4	Afsha	Ahl-e-Hadees	Basti Sahu	Shah Rukn-e-Alam	Ghosia Taleem-ul-Quran	Teacher	Multan

Plot of the Story:

This story is basically about the stereotypical minds of rural areas where it consider a sin if any stranger male hear the voice of the females, even females are not allowed to speak for good purpose as to preach anyone a good lesson through the medium of radio etc.to convey their message .Especially the madaris females were more conscious about this typical concept and instead to have knowledge, they never try to deliver it from outside of their madrisa, it was too much difficult to convince them about playing their role in promoting peace, tolerance and interfaith harmony among the people of society. Though it was challenging but it is achieved:

"Unity is strength...

When there is teamwork and collaboration,

Wonderful things can be achieved."

SANJH PAKISTAN

Success:

Sanjh Pakistan recorded two females radio shows in which there are four speakers as Miss Samina, the head teacher of madrisa Bibi Zainab (Ahl-e-Tashi) and Miss Suraya, the head teacher of Madrisa Sarwar-e-Fatima (Barailvi) are the speakers of one recording while Miss Alisha, the teacher of Ghosia Mehria Ashraf-al-Aloom (Deoband) and Miss Afsha, the teacher of Madrisa Ghosia Taleem-ul-Quran (Ahl-e-Hadees), are the speakers of other radio show recording. The females were not agreed to go at radio station therefore, it was mutually decided to record the radio shows at Sanjh Pakistan office Multan and females came at the office for recording. It is the biggest achievement of Sanjh Pakistan team that those madaris females who in the start of the project did not allow to capture their pictures, now being a promoter of peace, tolerance and interfaith harmony, they joined in radio show recording to make other people aware about the objective of this project “Women as peace Emissary”. One radio show’s recording will be on air in this milestone as well.

After the training, Sanjh Pakistan team conducted various SAPs in females’ Madaris and told them about peace, tolerance and interfaith harmony due to which the perceptions of participants starting to change. These females told that due to the segregation of sect, linguistic difference and domestic customs, they did not want to meet other sect females before becoming the part of this project, “Women as Peace Emissary”. In the very start of the project, Sanjh Pakistan team faced so many challenges as the females of madaris did not agree to sit with other sect’ females in Three-days CVE training session but team told them that they all are human beings and equal, no one is superior or inferior to others, team also mobilized them to become the part of this project “Women as Peace Emissary”. But after participating in different SAPs which were conducted in their Madaris and the messages of peace, tolerance and interfaith harmony were delivered and make all participants to play their role in this noble cause. When team talked about radio show recording, the females of madaris had the concept that it will be a sin if any male will listen their voice but through effective mobilization team developed the concept that it will be preaching the message of peace for all listeners of it. Miss Suraya the speaker of radio show said, “We have been teaching to our students for many years but we never try to talk to other sect people, this project provide us a platform to interact with other sect females, make us realize that before belonging to any sect we all are human beings and equal, it’s our responsibility to spread the message of peace which we have learnt from various SAPs. Radio shows are the medium to convey our messages of peace, tolerance and objective of the project to its listeners” Miss Samina the head teacher of Madrisa Bibi Zainab said, “ In first my family members did not allow me for recording, I convince them by saying that as Sanjh Pakistan team mobilized us

SANJH PAKISTAN

to be the part of this project, this recording of radio show is a medium for me to preach the message of peace and tolerance which I have learnt, it's our responsibility to make people aware about humanity and to eradicate the concept of sectarianism from their lives. It is essential to make people realize that interaction is necessary with the people living in their surrounding and it will be honor for me if this recording will changed the minds of only two percent listeners, they will stop to hate others and start to respect them without any segregation of sect and language, I will consider it a biggest achievement of mine. I want to deliver the message of peace which I learnt from different SAPs. My family was happy to hear this positive concept by me and allowed me to take steps in spreading the messages of peace, tolerance and interfaith harmony among the people of society who are not the part of this project.

Conclusion:

To conclude, it can be said;

"It is change, continuing change, inevitable change

That is the dominant factor in society today.

No sensible decision can be made any longer without taking into account

Not only the world as it is, but the world as it will be."
