

Mahar Ijaz Hussain Chawan's Success story

Name	Mahar Ijaz Hussain Chawan	Village	Sambhal	UC	83 Jhok Wains
Tehsil	Bosan Town	Distric	Multan	School	Govt. High School Sambhal

Mahar Ijaz Hussain Chawan is the principal of government High School Sambhal Multan. When Sanjh Pakistan's Team met him, he told that he had a negative view about all the organizations. He said, "I don't allow any organization to conduct any program in my school because I think it is only wasted of time of the school's student." Sanjh Pakistan team convinced him to come in different social action programs. When he went in these programs which were based on tolerance, peace and interfaith harmony, he liked these activities very much and attended some meetings of WAK along with his school's teachers. His misconception about organizations was changed gradually after attending Wasaib

Aman Kath's social action projects. Sanjh Pakistan's Team convinced him that he should allow WAK members to conduct debate competition, on the topic of peace. The main purpose of that competition is to bring peace in school's students and to give awareness about peace, Tolerance, brotherhood and interfaith harmony among all students of the schools. Mahar Ijaz Hussain Chawan allowed Sanjh Pakistan's team to organize debate competition which was held on 7th February, 2019. Ghulam Naveed Ijaz was the judge of that debate competition. In that competition Mahar Ijaz Hussain Chawan observed that student's passion was very significant, they were energetic and they participated in this debate competition with enthusiasm. He said, "All the students whatever sect they belong to, debate only on peace is possible which will be very useful to make them respect each other's sects. He also told that student's mental abilities can be highlighted, their confidence can be built from that type of events. Today's children are future's masonry, by focusing to eradicate sectarianism among all students, we can save the peaceful future of Pakistan." He appreciated the successful debate competition which was organized in his school and told that the people of his area were very happy and the students of his school were also very passionate and were getting awareness to grow up their skills. He said, "There was a distance between people before the establishment of Wasaib Aman Kath, now people are getting chance to gather on a platform and to get awareness about peace, brotherhood and interfaith harmony. The services of Wasaib Aman Kath are very appreciative for promoting peace." He told that Allah should increase Wasaib Aman Kath's expectations so that sectarianism in society would be eradicated. He said, "I personally very grateful to Wasaib Aman Kath's steps for peace, tolerance and interfaith harmony. Now I have come to know that all organizations are not the same and Wasaib Aman Kath is working very well. I heartily appreciate the work of Wasaib Aman Kath."
